

BLOCKED DONGLE PC TIME ERROR FIX

If you are using dongle at External Hub Please use it always at direct hub.

The screenshot displays the Hydra Update Manager Tool interface. The title bar shows 'Hydra Update Manager Tool Ver 1.0.1 Build 14 [Namyelus : HYDRATOOL]'. The main window contains a list of contact information for various roles:

- skype : Ozgur Oz
- facebook : Ozgur.Oz.1806
- Software Engineer:** Suleyman
 - skype : Namyelus X
 - facebook : hydra.tool.37
 - telegram : Suleman
- Lead Coder** : ulymar
 - skype : ulysses.monterol
 - facebook : brokeruly
 - telegram : +639122166044
 - whatsapp/wechat : +639122166044

Below this is the 'Dongle Info' section:

```
***** Dongle Info *****
Version   : Hydra Tool v 1.1
Serial    : 190300000374
Initialize : OKAY
Status    : Activated
```

At the bottom, there are several tabs: WindowLog, Support Site, Downloading Files, File Info, Dongle/Account Status, and Settings. The status bar at the very bottom shows IP addresses (88.244.107.4, 70-85-C2-34-5C-84, 192.168.1.33) and a timestamp (15.09.2019 17:46:05).

Red annotations in the image highlight two specific UI elements: a red box labeled '2' around a refresh icon, and a red box labeled '1' around a settings gear icon.
